(Transportation)

MAY 4 1955

The Honorable Rowland R. Hughes  
Director, Bureau of the Budget  
Washington 25, D. C.

Dear Mr. Hughes:

Reference is made to the pamphlet, dated March 1955, entitled "A Report to The Congress" as prepared by the "Commission on Organization of the Executive Branch of the Government," covering the general field of government transportation functions.

A study of the report discloses that this Agency will not be greatly affected by any of the recommendations contained therein as Commission Recommendation Number 20 appears to recognize the need for the continued exemption of certain agencies from direct General Services Administration traffic management control, as authorized in Public Law 152.

Those portions of the Commission report which deal with passenger movement and the correlated recommendations which would require that maximum utilization be made of commercial carriers will result in no change in procedure as this Agency has, as a matter of general policy and where possible, made a practice of utilizing commercial American flag carriers for our passenger travel.

Sincerely,

SIGNED

L. K. White  
Deputy Director
